

Easily Create & Customize Accounting Courses For Any LMS

By partnering with Wiley Efficient Learning, you better prepare your students for advanced accounting certification by providing streamlined online coursework that's 100% customizable to fit your curriculum or courseware. Our exam review courses deliver the most robust, up-to-date content and have been proven to dramatically improve pass rates for recent college graduates.

The benefits of partnership include:

- Review courses that integrate directly into any Learning Management System
- Higher pass rates you can use to promote your program and school
- The ability to totally customize course offerings to fit your curriculum
- Cost-effective educational tools with heavily discounted per-user costs
- No-hassle deployment, either with turnkey solutions or custom integrations
- Best-in-class customer service and account management

We will work with you to create, customize and deploy teaching solutions that meet your program's unique needs and delivery methods, whether it's entirely online or blended.

How It Works

Wiley Efficient Learning makes it easy for your program or school to provide truly cost-efficient, effective educational solutions. We offer several options for ordering and using our exam review courses:

1. Custom integrations into a portal or LMS with a per-user license fee.
2. Custom webpage for students to order at a discounted rate, or your program can be bill directly.
3. Discount code for students to use upon checkout.
